MOST of the adventures recorded in this book really occurred; one or two were experiences of my own, the rest those of boys who were schoolmates of mine. Huck Finn is drawn from life; Tom Sawyer also, but not from an individual--he is a combination of the characteristics of three boys whom I knew, and therefore belongs to the composite order of architecture.

The odd superstitions touched upon were all prevalent among children and slaves in the West at the period of this story--that is to say, thirty or forty years ago.

Although my book is intended mainly for the entertainment of boys and girls, I hope it will not be shunned by men and women on that account, for part of my plan has been to try to pleasantly remind adults of what they once were themselves, and of how they felt and thought and talked, and what queer enterprises they sometimes engaged in.

and thought and talked, and what queer enterprises they sometimes engaged in.

and thought and talked, and what queer enterprises they sometimes engaged in.

=30%

Relative Width=10%

The diagram illustrates the calculation of relative width for a nested box. It shows a large box labeled "Relative Width=100%" containing a smaller box labeled "Relative Width=10%". The text "Hello Gopher!" is inside the smaller box. The text "Relative Width=100%" is also present outside the boxes, indicating the context of the calculation.

Justified Width=130	mn
------------------------	----

Diagram illustrating text wrapping and relative width calculation. The text "Hello Gopher!" is shown in a yellow box. Below it, a white box shows "Hello Gopher!" with "Relative Width=10%". To the right, a white box shows "Hello Gopher!" with "Width=20%". Further right, a white box shows "Hello Gopher!" with "Width=30%". The text "Hello Gopher!" is repeated in a larger font size in the background.

The diagram shows three nested boxes. The outermost box is yellow and contains the text "Hello Gopher!". Inside it is a white box, and inside that is a green box. The green box contains the text "Hello Gopher!" and "Relative Width=10%". The white box contains the text "Hello Gopher!". The yellow box contains the text "Hello Gopher!" and "Relative Width=20%".
